IATA codes are abbreviations that the International Air Transport Association (IATA) publishes to facilitate air travel. They are typically 1, 2, 3, or 4 character combinations (referred to as unigrams, digrams, trigrams, or tetragrams, respectively) that uniquely identify locations, equipment, companies, and times to standardize international flight operations.

IATA - International Air Law Diploma
IATA – International Air Transport Association. Travel and Tourism have been recognized as the single largest item in world trade. Perhaps, it is likely to become the largest global industry by the turn of this millennium. Already accounting for more than 9.5% of total world trade, 30% of the service sector, and about 13% of the global employment. In fact it, it has become a multi-facet industry that affects nearly all the sector of the international and national economy.

IATA - International Air Transport Association

The International Air Transport Association (IATA / a t /) is a trade association of the world's airlines founded in 1945. IATA has been described as a cartel since, in addition to setting technical standards for airlines, IATA also organized tariff conferences that served as a forum for price fixing.. Consisting in 2016 of 290 airlines, primarily major carriers, representing 117 ...
