The TDI engines have improved considerably over the years, and the Golf TDI engines represent one of the best economy to power ratios for an engine in current production. Many consider the 1.9 TDI as the best diesel engine VW produced but the later 2.0TDi engines and modern fuel injection technology have raised the bar (sorry for that terrible pun!) and make superb projects to work on.

A tuning box connects to the engine of a vehicle to improve performance and fuel economy. It's the natural successor of the remap, an easily detected ECU tuning solution. TDI-Tuning write custom maps for every vehicle variant. These maps are then sent to the engine from a tuning box rather than writing them directly onto the engine ECU.
